## Table Lamp

This table lamp can be easily assembled by combining a wooden stand with a lampshade made of Hanji, Korean traditional paper made from Mulberry. Nature-inspired design gives shape to gentle breeze or a flower bud in the form of a lampshade. Thirty-three pieces of Hanji are put together with snap buttons to construct a lampshade, which are then inserted into the stand. Hanji is not only environmentally friendly but also a great material with fiber texture that allows soft lighting. Aroma oil essence or any perfume can be sprayed onto the shade to enjoy aromatherapy. The lampshade is replaceable with an alternative design. It comes in a sturdy 25mm-thick box, which ensures safe delivery. It is a great gift item.
